

The Bristol County Estate Planning Council

Invites You to Our March Dinner Meeting

Baby Boomers and The Future of Senior Living

There may be truth for the Boomers in the marketing slogan - "This is not your parents' old age." Join us as our panel of experts explores issues and alternatives for "senior" living the Baby Boomer generation can expect as they age.

This presentation will discuss "livability" issues like:

- Equipment for aging in place
- Support systems for aging in place ("Virtual Village Movement")
- The future of senior living
- What are the trends? Are preferences for housing and lifestyles changing?
- What will the need be for "livable communities"?
- What will Boomers want vs what is available?

The dinner and presentation will be held at the Home Healthsmith showroom. There will be plenty of time for questions for our panel, who have been selected to present a broad spectrum of future senior living options, visions and innovations.

March 16, 2017

5:30 – 8 pm
